Taproof

Checks that fit your workplace.

A simple tap connects your team to the right check, the recorded result and the next action.

Machinery & maintenance

Equipment checks, readings and photo evidence. Assign repairs and retain the inspection and follow-up history.

Configure for the site

Forklifts & warehouse

Pre-shift checks, hour-meter readings and defect photos. Review repairs against the truck handbook and site procedure.

Configure · operator review required

Food & cold storage

Fridge, freezer and cold-room readings. Record cleaning checks, agreed limits and corrective actions for exceptions.

Configure · approved limits required

Cleaning services

Room checks, cleaning tasks and supplies. Photo evidence, supervisor follow-up and searchable client records.

Configure for each location

HGV & vehicle fleets

Van templates and HGV demonstrations. Named checks, nil defects, photo reports and recorded repair follow-up.

Fleet workflow: demonstration stage

Care-home facilities

Room and communal-area checks, cleaning and fridge readings. Facilities repairs with recorded follow-up.

Facilities only · no clinical records

Property & security

Site-opening and closing checklists; patrol-point observations, access-area issues and maintenance jobs for building defects.

Configure · no proof-of-presence tracking

Hospitality & retail

Kitchen and stock-area checks; cold-storage readings, cleaning tasks, opening checks and equipment maintenance follow-up.

Configure for the site

Options are configured around your approved procedures. The examples above are starting points, not complete regulatory checklists or equipment certification.

Choose what each tap does.

Start with the checks that matter most. Add locations and workflows as the scope is agreed.

Inspection checklist

Pass/fail checks, staff identity, timestamps and saved history.

Numeric reading

Record a value and unit, with optional agreed limits.

Photographic fault

Attach fault evidence for the manager to review.

Maintenance job

Assign work, record repair notes and approve closure.

Jobs & attendance

Assigned jobs, clock-in/out records and CSV exports.

Email notifications

Fault and job updates. Test recipients during setup.

Manager dashboard

Equipment status, faults, due checks and search.

Reports & exports

Daily/weekly summaries, CSV and photo reports.

NFC & QR access

Unique equipment links, QR backup and tag replacement.

Reported → Assigned → Work complete → Manager approval

Completed work awaits sign-off. Critical faults retain stop-use until authorised release; other open faults still remain visible.

Indicative monthly plans

10 points	20 points	50 points	100 points
£29.99 / month	£49.99 / month	£99.99 / month	£149.99 / month

Hardware, installation, support scope and VAT treatment are confirmed in the written quote. Subscription figures are working proposals, not an accepted contract.

Larger sites: custom quotation. Payroll, SMS/push, timed escalation and integrations are not included. Online checks and jobs need internet; approve checklists and test tags/phones before operational use.
